PIGLISH AND CHINEST. WITH THE PUSTI AND MANDARIE PRONUNCIATION. An Anglo-Chinese Dictionary, published at the

Daily Press Office. Hongkong. For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of latey ears been compelled to poin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Panti pronunciations are given the eccouts being carefully marked on the best principle hitherto attrined. The typography displays the success of an attempt to make the Chinesa and English type correspond in the size of body thereby effecting a vast occnomy of space, achieving a clearness not previously attained, and dispensing with those vast margins

and vacant spaces which have heratofore characs terized Chinese publications. . To illustrate the vast scope of the work the following facts are submitted for consideration :-Chalmers Vocabulary contains about 16.000 | MORRO W, the 7th inst.; st DAYLIGHT. Chinese characters, and Madhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and nows is of 600,000 Chinese characters Again, de pite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various app'ications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto pub-

lished. For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties recident in England and interested Chins it cannot but be invaluable occasion-

It comprises upwards of two thousand large quarto pages. 4 Vols. IMPERIAL QUARTO, Price. \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.
